There are hard things said about the Missouri river. The government cannot control it and is about to abandon it as a means of transportation. The millions spent in an effort to make the "Big Muddy" a permanent channel for commerce have been washed away like the farms and hamlets along the treacherous stream. Besides, men contend that the river is losing its volume, owing, perhaps, to the drainage of it by the thousands of artesian wells in South Dakota.

Attorney Tom Orice has returned from a trip through California and the west.
